

SmartPro 120V 3kVA 2.25kW Line-Interactive UPS, Tower, Extended Run, Network Card Options, USB, DB9 Serial

MODEL NUMBER: **SMART3000VS**

Description

The SMART3000VS intelligent line-interactive UPS with expandable runtime protects server, networking and telecommunications equipment from blackouts, voltage fluctuations and transient surges. Small-footprint tower UPS system occupies only 106 square inches of floorspace with a height of only 14.25 inches. Large-capacity 3000VA/2250W rated UPS system offers four minutes runtime at full load and 14 minutes at half load during power failures. Runtime is expandable with optional external battery packs. Line-interactive voltage regulation corrects brownouts as low as 79V and overvoltages as high as 147V to fully regulated 120V nominal output for smooth continuous operation of connected equipment. Includes a total of 10 outlets, three of which can be individually powered off and back on via software interface to selectively reboot remote equipment or shed less critical loads to extend battery runtime for more critical loads. Includes slot for Network Management Card option. Also includes two DB9 and two USB-enhanced monitoring ports for unattended shutdown, remote control and monitoring of UPS system and power data. Ships in attractive gray color scheme. Compatible with PowerAlert® and Watchdog service software.
