TAA-Compliant SmartPro 120V 500VA 300W Line-Interactive UPS, 1U Rack/Vertical, Network Card Options, USB, DB9 Serial

MODEL NUMBER: **SMART500RT1UTAA**

Description

This SMART500RT1UTAA intelligent line-interactive rack/vertical UPS system prevents data loss, downtime and equipment damage due to power outages, voltage fluctuations and transient surges. Requires only one rack space (1U) in a 2- or 4-post rack. Large internal batteries offer 14.6 minutes half-load runtime and 3.2 minutes at full load. Maintains regulated 120V nominal output without using battery power during brownouts as low as 90V. 500VA/300W power handling capability is compatible with networking, telecom and other sensitive electronic applications. Includes six UPS supported outlets with a single-outlet load bank that can be individually controlled via software interface to reboot select equipment on demand or shed less significant loads to extend battery runtime for more critical equipment. Includes one surge-only outlet for peripherals not requiring battery backup.

Supports simultaneous remote monitoring of UPS and site power conditions via built-in USB and DB9 monitoring ports. PowerAlert® UPS monitoring and unattended shutdown software is available via free download. Emergency Power Off (EPO) interface offers option for instantaneous power-off of UPS and connected equipment in the case of fire or emergency. Multi-function audible alarms and set of five front-panel LEDs offer at-a-glance notification of UPS and line power status. Network-grade AC surge suppression protects equipment from damage and performance problems resulting from transient surges and line noise. Attractive all-black color scheme.
