Model #: US-4A

USB Device Server, 4-Port Keyspan by Tripp Lite

Highlights

- Break the 5 meter USB cable limitation!
- Share USB devices
- Extend the USB connection to any distance
- Access USB devices via WiFi
- Bi-directional communication

Description

Our USB Server makes it possible for USB printers (including multi-function printers), USB scanners and other types of USB devices to be used and shared by PCs on a network. It is ideal for home office, small office or classroom use.

The USB Server supports both Ethernet and Wi-Fi networks -- making it easy to print to a USB printer or connect to other USB devices from a Wi-Fi based laptop.

System Requirements

Windows:

- Windows 2000/XP

Macintosh:

- Mac OS X (v10.3 or later)

Package Includes

- Server (US-4A)
- power supply
- CD with driver software and user guide
- Printed Quick Start Guide

Features

- Share USB devices
- Make USB devices available to multiple PCs and Macs on your network
- Access USB devices from a WiFi laptop
- Eliminates the need to take the laptop to the USB device in order to connect the two with a USB cable
- Break the 5 meter USB cable limitation
- Separate the USB device and the host PC by any distance (100 ft, 100 miles, or more)
