Important Safety Instructions

SAVE THESE INSTRUCTIONS

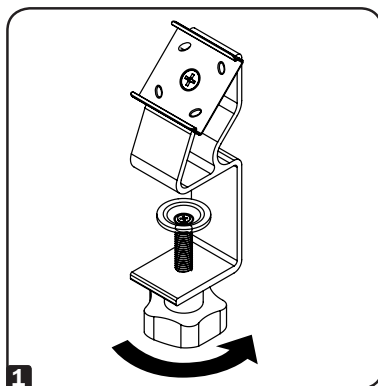

- DO NOT connect the power strip to an ungrounded outlet.
- DO NOT use the power strip with 2-wire extension cords or adapters.
- This power strip is designed for indoor use only. Install the power strip away from heat-emitting appliances such as radiators or heat registers.
- Do not install where excessive moisture is present.
- Do not plug extension cords into the power strip.
- Never install electrical, telephone, network or coaxial wiring during a lightning storm.
- Do not drill into any part of the housing or open the housing for any reason. There are no user-serviceable parts inside.
- Use of this equipment in life support applications where failure of this equipment can reasonably be expected to cause the failure of the life support equipment or to significantly affect its safety or effectiveness is not recommended.

Clamp Mounting (Included with Select Models)

Clamp mounts attach to a desk, tabletop, workbench or other solid, flat surface. Your Tripp Lite Power Strip is compatible with the clamp mounts. For power strip models that do not include clamp mounts, clamps can be purchased at www.tripplite.com.

- 1** To install the clamp, loosen the knob, then slide the clamp firmly onto the edge of an appropriate surface. Turn the knob to tighten and secure the clamp to the surface. Repeat for any additional clamps.

Note: If the mounting clip is loose, use a screwdriver to tighten the screw.

- 2** Push the Power Strip into the clamp mount clip(s) until it securely snaps into place.

Wall Mounting

All Power Strip models feature clips for horizontal or vertical mounting on a variety of surfaces.

- 1 Check Clip Type:** Your Power Strip will contain one of two types of mounting clips, depending on the model.

- 2** Mark a straight horizontal or vertical line where you want to mount the Power Strip. At each end of the line, mark where the edges of the Power Strip will be located. Place a mounting clip on the mounting surface 1" in from these edges and mark where the screws must be driven into the wall. For strips longer than 48" (120 cm), also mark a screw hole for a third mounting clip midway between the other two.

- 3a** **Clip-A Mounting:** Drive #8 screws directly into the mounting surface, leaving approximately 3 mm of space between the screw head and the surface. Snap the mounting clips onto the Power Strip **3a1**, then hang the Power Strip on the screws by the keyhole slots on its mounting clips **3a2**.

- 3b** **Clip-B Mounting:** Pre-drill holes in the mounting surface, if necessary. Drive screws through the centers of the mounting clips and into the mounting surface **3b1**. Place the Power Strip inside one edge of the mounting clips, then snap the Power Strip into place **3b2**.

Equipment Connection

Plug your equipment into the Power Strip's AC receptacles. **DO NOT** plug in equipment that draws more total amps than your Power Strip's amperage rating (see label on Power Strip for amperage rating), or you will trip the circuit breaker. If the circuit breaker trips, remove overload and depress breaker to reset. Leave enough clearance at the end of the Power Strip to allow the circuit breaker to operate normally.

Note: Select models with a power switch feature a protective switch cover. To access the switch, flip open the attached cover.

Warranty and Product Registration

Lifetime Limited Warranty

Seller warrants this product, if used in accordance with all applicable instructions, to be free from original defects in material and workmanship for its lifetime. If the product should prove defective in material or workmanship within that period, Seller will repair or replace the product, in its sole discretion. Service under this Warranty can only be obtained by your delivering or shipping the product (with all shipping or delivery charges prepaid) to: TRIPP LITE; 1111 W. 35th Street, Chicago, IL 60609. Seller will pay return shipping charges. Visit www.tripplite.com/support before sending any equipment back for repair.

THIS WARRANTY DOES NOT APPLY TO NORMAL WEAR OR TO DAMAGE RESULTING FROM ACCIDENT, MISUSE, ABUSE OR NEGLIGENCE. SELLER MAKES NO EXPRESS WARRANTIES OTHER THAN THE WARRANTY EXPRESSLY SET FORTH HEREIN. EXCEPT TO THE EXTENT PROHIBITED BY APPLICABLE LAW, ALL IMPLIED WARRANTIES, INCLUDING ALL WARRANTIES OF MERCHANTABILITY OR FITNESS, ARE LIMITED IN DURATION TO THE WARRANTY PERIOD SET FORTH ABOVE; AND THIS WARRANTY EXPRESSLY EXCLUDES ALL INCIDENTAL AND CONSEQUENTIAL DAMAGES. (Some states do not allow limitations on how long an implied warranty lasts, and some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This Warranty gives you specific legal rights, and you may have other rights which vary from jurisdiction to jurisdiction.)

WARNING: The individual user should take care to determine prior to use whether this device is suitable, adequate or safe for the use intended. Since individual applications are subject to great variation, the manufacturer makes no representation or warranty as to the suitability or fitness of these devices for any specific application.

PRODUCT REGISTRATION

* No purchase necessary. Void where prohibited. Some restrictions apply. See website for details.

Regulatory Compliance Identification Numbers

For the purpose of regulatory compliance certifications and identification, your Tripp Lite product has been assigned a unique series number. The series number can be found on the product nameplate label, along with all required approval markings and information. When requesting compliance information for this product, always refer to the series number. The series number should not be confused with the marketing name or model number of the product.

Tripp Lite has a policy of continuous improvement. Specifications are subject to change without notice. Photos and illustrations may differ slightly from actual products.
